www.whatsbox.in

Welcome to Amuwa Corporation

Your new professional home in revolutionizing business communication solutions. As an Official Meta Business Partner, we empower businesses with cutting-edge tools that transform customer engagement through WhatsApp Business API, AI-powered solutions, and comprehensive communication platforms.

OUR FOUNDATION

Mission, Vision & Values

Our Mission

Empower businesses with intelligent, scalable communication solutions that transform customer connections and drive lasting relationships through innovative technology.

Innovation First

Continuously evolving solutions to stay ahead of market needs

Integrity & Trust

Building lasting relationships through transparent, ethical practices

Our Vision

Become the leading provider of integrated business communication platforms globally, recognized for innovation, reliability, and exceptional customer success.

Customer Success

Your success is our success – committed to delivering results

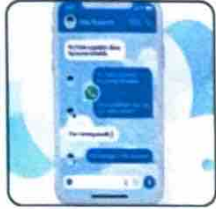

Excellence

Maintaining highest standards in everything we deliver

Our Product Portfolio

Comprehensive communication solutions built on robust technology platforms, backed by our Official Meta Partner status for reliability, scalability, and continuous innovation.

WhatsApp Business API

Enterprise messaging platform enabling verified business accounts with advanced automation and broadcasting capabilities.

AIQR Solutions

Intelligent QR technology bridging offline and online experiences with AI-driven analytics and automated follow-ups.

Call Management

Comprehensive telephony with IVR, call routing, recording, and CRM integration to optimize operations.

RCS Messaging

Next-generation messaging with rich, interactive experiences and verified sender identity beyond traditional SMS.

Social Media Management

Unified platform for managing multiple channels, scheduling content, and measuring performance across all networks.

Marketing Automation

Intelligent tools for lead nurturing, customer journey mapping, and behavioral triggers that drive conversions.

WhatsApp Business API: Our Flagship Solution

The most powerful way for medium to large businesses to leverage WhatsApp's 2 billion+ user base with unlimited automation, multiple user access, and enterprise-grade features.

Verified Business Profile

Green checkmark validation builds trust, increasing message open rates by up to 70% compared to unverified senders.

Advanced Automation

AI-powered chatbots handle queries 24/7, qualifying leads and resolving issues without human intervention.

Broadcast at Scale

Send promotional messages and notifications to unlimited customers with personalization and targeting capabilities.

CRM Integration

Seamlessly connect with Salesforce, HubSpot, Zoho, and custom systems to sync data and automate workflows.

WhatsApp Business: App vs API

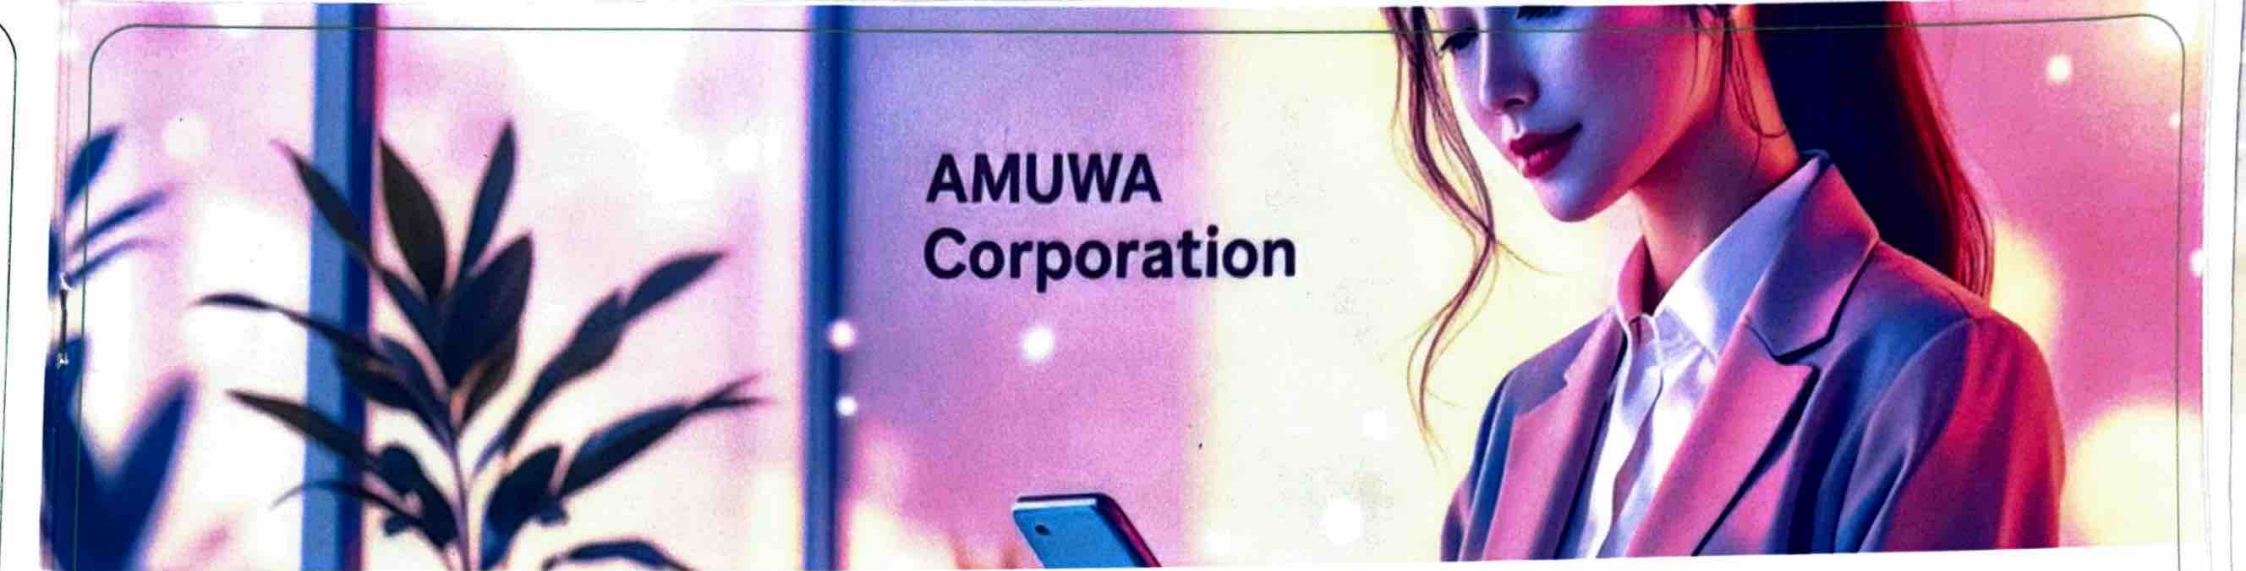

Business App

- Free download from app stores
- Limited to 5 devices
- maximum Manual message
- sending only Basic business profile
- features Suitable for under 100 daily conversations
- No API integrations possible

Business API

- Unlimited users and team members
- Full automation with chatbots
- Verified green check mark
- badge Broadcast to unlimited customers
- Complete CRM and system
- integration Advanced analytics and insights

The API version is essential for businesses needing to scale customer communication, automate tasks, and integrate WhatsApp with existing technology. This is where our expertise as an Official Meta Partner becomes invaluable.

AMUWA
Corporation
